

**Dowdy Pork LLC
2010 CAFO Annual Report**

3/3/11 (2010 REVISION)

1. Animal Inventory: 1640 sows
160 gilts
1800 piglets
20 boars
2. Estimated amounts of total manure, litter, and wastewater generated by the CAFO in previous year: 1,872,450 gallons
3. Estimated amounts of total manure, litter, and process wastewater transferred to a 3rd party by the CAFO in previous year: none
4. Total number of acres for land application covered by the nutrient management plan:
85 acres
5. Total number of acres under control of the CAFO that were used for land application of manure, litter, and process wastewater in the previous calendar year:
60 acres
6. A summary of all manure, litter and process wastewater discharges to waters of state from the production area that have occurred in the previous calendar year:
No discharge (0)
7. The nutrient management plan was developed by Doug Dowdy, owner, with the use of UT publication # PB 1635 (Nutrient Management Plan Assistance Guide for Tennessee Class II Concentrated Animal Feeding Operation Permit) and assistance from Rick Cody NRCS of Fayette County. Sam Marshall, TN Department of Agriculture, Nashville approved the plan. There was not a certified planner involved in the formulation of this plan.

8. I certify under penalty of law that this document and all attachments were prepared under my direction and supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. The information submitted is, to the best of my knowledge and belief true accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violation.
